BESPOKE

CUSTOM DESIGNED UPHOLSTERY

Your Style Takes Shape

Baker Bespoke ushers in a new generation of custom seating, drawn from an assortment of classic patterns, tailored to your custom selections. All built to the Baker Standard - and that remains the very best.

BAKER COMFORT

Our standard cushion for most upholstered pieces. Made from a solid poly core of 18 lb. density/ 14 lb. compression foam with additional foam at the top and bottom for added comfort. The core is covered in down proof ticking with a down, feather and fiber blend filling. Upon request, the cushion can be made firmer with your choice of three higher-compression foams.

BAKER COMFORT PLUSH

Simply our softest cushion. Crafted from a 100% down, feather and fiber blend. This cushion requires the most maintenance to preserve its shape and comfort.

BAKER COMFORT ULTRAPLUSH

An ultra-soft option for back pillows and throw pillows. Each pillow is constructed in down proof ticking, channeled to prevent the movement of materials. The 100% down and feather filling offers plush support and requires a high level of maintenance.

BAKER FIBERLUX CUSHION

A non-allergenic cushion with universal appeal. Designed to mimic the standard Baker Comfort Cushion, it is made from a solid poly core with convoluted patching on the top and bottom, contained by a fiber wrap and placed into a ticking.

BAKER FIRM SPRING DOWN CUSHION

Our most supportive Baker cushion. Built with a 14 gauge spring and 1" toppers of 18 lb. density/ 18 lb. compression foam. Its edges are carefully wrapped in fiber, then covered in a down proof ticking with a down, feather and fiber filling.
